In Congress yesterday, the deficiency appro printion of \$8,000,000 was discussed. It is oreating no little excitement, and a despatch says the bill, with something of a discussion as to the merits and demorits of the Mormon war.

The Senate returned the Kansas Bill to the House yesterday. The latter body take it up to day at 1 o'clock.

In Portland, Me., the Republicans have elected their candidate for Mayor by 208 majority over one of the strongest leaders of the Domo cratic party. The Charter election in Madison, Ind., was a complete anti-Lecompton triumph. In Schenectady, N. Y., the Republicans have elected a large majority of their ticket. The iutelligence from Connecticut State election is more and more cheering. The Senate stands Republicans 16, Democrate 5; House, Republicans 184;

MELANCHOLY ACCIDENT,—Friday noon, an accident of the most painful nature took place at the Illinois Cantral railroad freight house, which has resulted in the death of one boy and injury to another. The two boys were standing upon the platform of a car, against which another train backed. One boy was struck in the head by a bolt of the car, and died during the evening. WASHINGTON, April 7. SENATE.—Judging from present indications, the Deficiency Appropriation Bill, embracing about \$8,000,000 for the army, will be defeated in its present form. There is an increasing disposition in Congress to check further movements of the Utah expedition. The entire military force contemplated to be thrown into Utah is

already been saved by the Committee's economy.

Mesers, Houston and Mason spoke in favor of printing these culogies.

Mr. Seward explained that his vote in favor of the printing was not influenced by personal interest. He also spoke of exaggerated funeral

honors as unnecessary.

Finally Mr., Houston, motion to printing, was disagreed to. The Minnerota bill was then taken up. It was very brief, consisting of a prenmble and two sections admitting Minnesota as a State, and sllowing her two representatives. The amandments were concurred in and the bill read a third time. Mr. Wilson called the nyes and nays on the passage of the bill. Previous to the calling of the roll, Messrs. Bell. Houston, Brown, Johnson of Tenn., Urittenden, Stuart and Wilson, made brief remarks on the clause in the Constitution permitting allons to voto. The final vote that the bill pass was, ayes 48, nays 3. Nays, Messrs. Clay, Kennedy and Yulee. Absent, Messrs. Baydrd, Benjamin, Davis, Fessendon, Foote, Henderson, Iverson, Pearce, Reid, and Thompson, of Ky. The Senate then went into Executive Session, and on the opening of the doors adjourned.

House.—Mr. Otero, of New Mexico, introduced a bill for the construction of a wagon and emigrant road in New Mexico. The House went into committee on the Defi-

ciency Bill.

Mr. Letcher, of Va, said the committee on ways and means were placed in an embarrassing position. They had been fired upon by the democratic side of the House. Some democrats were against all the provisions of the bill, and others against particular portions; but all seemed to concur in the conclusion that unless the

Mr. Lovejoy, of Ill., was willing to undertake the war against Utah, by contract at helf, what the bill proposes to appropriate. All the Government has to say, is whether Brigham Young, is to be hanged and now many men it wants killed.

Mr. Letcher, of Va., replied, that it was not known before, that the gentleman was a fighting man. Otherwise probably the Secretary of War, might have spoken to him on the subject. (Laughter.)

Mr. Colfax replied that his colleague would find his labor in vain.

Mr. Hughes—I have converted you, for you leclared that you would not vote for the admiseion of Kassas under the Lecompton Constitu-tion, yet did so the other day. (Laughter.)

Mr. C. replied he had not voted to ratify, but to reject that constitution. He had voted to ad-mit Kassas as a State without endorsing any constitution, leaving the people to vote on Le-compton under such circumstances as the Washington Union declared would induce them to re

ject. He had voted for the Critenden around-ment, which was as full of Black Republicanism as an egg is full of meat. On motion of Mr. Garnett, of Va., the committee rose and reported the bill, with a recom-mendation that it be recommitted to the com-mittee of Ways and Means, with instructions to report, in separate bills, the items for deficiency under each head for the expenditure for the service of the present fiscal year, and in another bill all appropriations designed for the next fiscal year; also with instructions to enquire what further legislation is necessary to restore to Con-gress an afficient control over the expenses of

such instructions could not be given, as it would be impossible to comply with them. The Speaker replied that the Report was novel in its character, but at the same time it was com-petent for the Committee to make the recom-

Mr. Campbell, of Obio, said if the recommend should prevail, it would amount to a practical defeat of the bill.

The previous question was ordered on agreeing to the instructions to the Committee on ways and means, pending which the House adjourned.

MILWAUKEE: THURSDAY MORNING, APRIL 8.

The Berlin Murder Trial Again.

It will be remembered by our readers that we company, is regard to which subject the people in the last seem to be greatly beforged. The Company has received no patents to any lands, and has but a conditional right to them.

By the terms of the law of 1868, the first condition upon which the Company was to require

position that Wright was sans except when under the influence of liquer, and further stated that the sanity of the defendant was testified to be surely of the first that the sanity of the defendant was testified to be surely as a different view of his day in the premiues, and holding that the Company for by two competent physicians. The disposition made of this case by the Court and jury, has excited great indignation amongst the people of Berlin.

It is asserted that the immediate relatives of Wright desired the conviction in order to get rid of bim, and Mr. A. B. Hamilton, counsel for the limits of bim, and Mr. A. B. Hamilton, counsel for the limits of bim, and Mr. A. B. Hamilton, counsel for the limits of the limits of almost a belonging to the limits of the defendant, venches for this in a long communication to the Courant upon the subject. In

him as instance for the past six or seven years.—
Particular acts indicative of meanity were also proven, such as his praying one moment, and cursing and swearing the next; his laughing and talking to himself; his secreting an axe to kill his paren s; setting fire to his father's house, and the threats made at the time of his sceing his murdered brother, and many others. In addition to this there was the evidence of Dr. Alcounty, and physician of forty years practice, that and the triber, and many others. In addition to this there was the evidence of Dr. Mc-Cracken, a physician of forty years practice, that he believes him not a man or sound initid.

You may ask then, how came be to be convic-ted? To this question no direct answer can be given. I found after the trial that the opinion given. I found after the trial that the opinion to some extent prevailed that he would be better off in the State prison than anywhere else. This opinion I found emanated from his friends, and I have no hesitation therefore in hazarding the belief, that if the man had been saved from his ds, he would have been saved from the State Prison, and the county the disgrace of his

conviction.

It is due to Judgo Larrabee to say that no censure can possibly attach to him. Though we may differ as to the point, whether the defence set up was proven or not, no one can doubt but what his course upon the trial was fair and honorable.

Yours, &c.,

A. B. Hamitton.

the statement of Mr. Hamilton, in rather a longthy article which it concluses thus : For the information of the Sentinel, and the public abroad, we will state a few facts, which

are patent to every observer who has been in this city any length of time. The friends and relatives of the so-called mur-The friends and relatives of the so-called indri-derer have asserted without contradiction, for several years, that he was insane, and so univer-sal has been the conviction, that he was only known as "Crazy (John Wright." Although nearly thirty years of age, and confessedly natur-ally the brightest member of a family by no means lacking in intelligence, he has been inmeans lacking in intelligence, he has been invariably controlled as a non-compos, entirely out of the pale of society. His mind has been more and wandering, and his language remarkably strange. He has peckesed a sort of fittality, never denying or attempting to conceal the commission of crime. He has been represented as very fond of liquor, but was not a public drunkstool entire that his drinking propensities was the cause, was not charged, but that he was insane, and the strong expression of feeling by the public on the subject, was not against him, nor yet, as often is the company solicit or request any stockholder to Company, solicit or request any stockholder to Company, followed to the inclination of the stock that the shores standing in his own name on the books of said Company; nor shall the President, Secretary, or any Director of said Company solicit or request any stockholder to Company solicit or request any stockholder to Company, solicit or reques ject, was not against him, nor yet, as often is the case with the acknowledged drunkard, against the ramselter, but against the family, for not taking proper care of him. All this, and doubtless much more, might have been produced in evidence on the triat. If it was not, we are glid the moral responsibility of the ordission does not rest upon us, and it it were, we leave to others the task of defending the Judge and jury. One more fact, and we rest the matter, hoping that we may not be compelled in self-defence, to dig any deeper into this unfortunate discussion.—

TRIAL OF THE Ex-Kind or Deant.-The last Indian mail brings an account of the trial of the old King of Dollai. case, as obtained from reliable and uncontradict ed testimony.

The grog shop of Ack Windham, at which the fight took place, was proved to have been a post to the community; it was a retail establishment, miscalled by some a grocery, and negroes seem to have constituted his principal outcomers. Some of the sufferers from his nefarious traffic, and as members of the Vigilant Society, had waited up-on and requested him to desist from retailing and negro trading, telling him at the same time the they could not and would not endure it. He promised to do so. Shortly alter this, however perhaps on Monday before the Thursday on which he hamicides were committed, three barrels: "bald face" were delivered at Cartersville for bim. As soon as this was known, some of the citizens of his neighborh od assembled for the

By the next morning, however, the members of
the different Yighant Societies and others had
assembled, to the number of seventy-five or
eighty, many of whom were armed and proceeded to the shop. As upon the day before, they
found the Windhum family with some of their
thands warmen at the ford the which; they found the Windhum family with some of their friends, prepared to defend the whisky; they were well armed. The Vigitant party was under the command of Gen Carter, and his orders, proved to have been frequently repeated within the hearing of the Windhams, were, "don's free a gun unless you are fired upon; or strike a blow unless you are struck; if assalled, defend yourselves."

Before the Vigilant party reached the shop, it was halted, and two of the gentlemen were sent to inform the Windham's of their intention.— They expostulated in vain, and were called away by their friends, who, seeing evidences of hostilty on the side of the Windhams, cailed, out, to them to "stand astic, for if the opposite party fire they would return it." The Vigilant party approached the shop, which the party surrounded, a company, commanded by Capt. Giles Carter, being immediately in front of and facing the shop door before which the Windhams, were standing. Others of the Vigilant party, were nearer the house, and in a very tew paces of the door. While it this position, Gon. Carter, informed the Windham party that his intention was, "not to injure any of them, unless they began the attack; that his party had come to empty Ack Windhams whisky, and they intended to do it." At this time, Ack Windham told his party to come away and let them have the whisky, and be would law thom. This they refused to do, swearing they would die rather than give it up.

While they were parleying thus, Caleb Freeman, whom it was proved had sworn to kill Giles Carter upon the first opportunity, stopped off from his company, and exclaiming "Lee you, Giles Carter, you are the first man I intend to kill," fired, the shot passing through his cost and striking Samuel Robinson, wounding him severely; he endeavored to fire a second time, and while in the act of doing so, he was abot, and falling, discharged his gun in the air. As soon as the first gan fired, General Carter gave the command—"take them, men," and a rush was instantly made upon them; Mr. A. N. Stuckey grasped one of the Windhams around the body; and while holding him, Abel Windham rushed upon him from behind, and plunged his knife into him twice, but before he could inflict a third blow, he received one over the head-with a gun or stick,

Lowa Facus.—What a sad mistake it is to suppose that a man should be gloomy because he is devout; as if alsery were acceptable to God, on its own account, and happiness an offence against his digalty. A modern writer, much wisdom and pith of writing, says: "There is a secret' belief amongst glome men, that God is displeased with men's happiness, and so they slick about creation, ashamed and afraid to enjoy anything!" These are the people of whom Hood says!

Thurthink they're pious,"
When they'ere only billious." Mean hey'ere only billious."

A good man is simost always a cheerful one. It is fit that bad mon should scowl, and look blue, and be melanchely; but he who has God's smile of approbation upon him, should show its radiance in his countenance. Dr. Johnson said he "never knew a villain in his life that was not, on the whole, an unbupy dog." And well he may. But an honest man—the man with a good conscience—let him cujoy his sleep, and his dinner, and the love of his wife, and the prattle of his cillidron, and show a beaming face to his neighbor. Surely there is no were theology that that which teaches that he who has given such fulness of joy to beasts and bitds, delights such fulness of joy to beasts and birds, delights in the misery of men: or that, having filled our hearts with gladness, we ought to give the lie to his goodness, by wearing faces beclouded with wor, and futrowed with pretended happiness.—

Boston Post.

A HAPPY CONVERT.—One of the prominent politicians of this city, who likes a good joke and takes things easy, recently went to Washington, an anti-Lecompton man, but neverthelugion, an anti-Lecompton man, but nevertheless, determined to look after the interests of number one, and "govern himself accordingly."

After he arrived at Washington, he became sutisfied that to be any body, and stand any chance hereafter of securing a share of the spoils, he must turn a Lecomptonite—see he turned. In writing home to a personal friend, whom he know had an henkering after an office, he advised him to turn Lecomptonic also can they wised him to turn Lecomptonic also can they vised him to turn a Lecomptonite also, and then told him to "watch and pray." After relating, that his chances were good for an appointment his letter closed withithe following:

"Amnuing grace, how sweet the sound,
That saved a wretch like me;
I once was lost, but now am found —
Wasblind, but now I use,

Democrat lately attended a wedding in that County, where the ceremony was performed by a young Justice of the Peace. The editor thus

roports: — "The Squire, who was a regular Democrat, has squire, who was a regular Democraty bushful, and as luck would have, it this was the first wedding at which he bad-ever been called upon to officiate, it may be supposed that he was comewhat embarrassed. He managed, however, filth a tremb ing voice, to call upon the parties "to stand up and join hands," but horrible to relate he had foresting the new parties are the stand up and join hands," but horrible to re-It is stand up and join hands," but horrible to relate, he had forgotten the ceromony, and neglected to take his book! After a pauso of a few moments, the 'Squire broke the selected with the following question: "In the commonwealth of the State of Okio, [---]" "Know all men by these—-;" "Do you solumnly aware to the state of the state of Okio, [---]" "The own solumnly aware to the state of Okio, [---]" "Do you solumnly aware to the state of Okio, [---]" "The own solumnly aware to the state of the state of Okio, [---]" "Do you solumnly aware to the state of t these—!" "Do you solemnly swear to this woman to be your wife; to love honor and obey her, to support the Constitution of the State of Ohio, and to vote the Democratic ticket?" As we backed out of the door in convulsions with

Our flats stuck into our ribs, we imagined we heard the groom respond "yes," and the Squire prenounced them "man and wife." Exaggoration is one of Mr. C.'s weakent points, alboit he is generally an exemplary thris-tian. Ebonezer is dignantly expressed himself, touching the extravagant outlay of \$100,000 for a church, whose the following soothing reply was avoked from (1): woked from C.:

"Call you that pattry sum extravagant? Why, man alive, in the city of T., where I came from our society built a church, the exponess of which you may judge, when I state the fact that the putty alone cost forty thousand dollars. Extravagent, indeed, why, what a skinflint set of people you are."

A now dodgo has just been started, which is calculated to deceive the public. A young fellow goes to a house when he knows the gentleman is out, and dollvers a letter purportgontleman is out, and dollvers a letter purporting to have come by express, and charges twenty-live cents therefor. The wife, of gourse, advances the change, and keeps the letter for her husband. Upon opening the document, either some idioulous information is given him, or the simple words, "Thank you," meets his astonished gaze. Old telegraphic envelopes have been used with success. od gazo. Old telog used with success.

A singular coincidence has been remarked in re ard to the late attempt on the life of the Emperor of France. On both occasions that his Majesty has wished to bear Ristori play, his life 4251 has been attempted, and on both occasions the play was "Mary Stuart." The Emperor himself epoke of this remarkable coincidence.

We could have wished that this honor had been gained by our eminent physicians who competed for the price; but, falling in that, we had rather it would belong to our reassant physicians who also endewored, though an unsuccessfully, to prove that they had a x remedy which would answer the purpose.
